

## Job Description Software Implementation Engineer

### Important Note

- Please note there are Two Salary / Stipend Structures for all Employees / Interns :
  - A. Target Based Salary / Stipend Structure:** All benefits and perks, such as stipend or salary, will be subject to the monthly functional targets achieved by you as an employee or intern during the employment or internship period. **Delay in Monthly Functional Targets Achieved by Employee / Intern will lead to Delay in Salary / Stipend by BuziBrAIns.**
  - B. Fixed Salary / Stipend Structure:** Candidates who clear the interview rounds with excellent grades might be exempted from the functional target salary structure. Such candidates will be considered under a **Fixed Salary structure**, with separate rules explained at the time of joining.
- Working mode (work from home, hybrid, or work from office) will be mutually decided by the candidate and the reporting head or team coordinator. The number of days the candidate needs to come to the office will be decided mutually after the candidate starts working.
- Employees / Interns joining us should sign the undertaking for “**Minimum Service Period**”. Candidates who do not want to sign a bond or undertaking for a minimum service period may opt for an OPEN JOINING type. Details will be provided after selection. **Open Joining is allowed ONLY for Certain Positions.**
